Child Death Investigation: Child Death Scene to Court

July 23-24, 2018

The two day course provides participants with a broad scope of knowledge regarding the mechanisms of death typically found with child deaths, as well as specific information and strategies for properly investigating the cases. The course also provides practical exercises for reconstructions of infant deaths and delves in-depth into cases for discussion. Overall, the course gives participants a new perspective on exactly what these cases require to reach final determinations of cause and manner of death.
