Conclusion

The analysis was conducted by reviewing all standard Use of Force reports which were submitted during the year 2020. Evansville Police Department procedures require that in all instances where physical force is utilized, a report is made. In each case, a supervisor reviewed the use of force following the incident. Although there are similarities, there is no evident pattern that would indicate a flaw in training or procedural rules of using force. The results do not indicate any patterns of unusual amounts of force being used by any one shift or sector.

The force used on 296 of the 356 force incidents, were reported to be under or had the appearance of being under the influence of drugs, alcohol, or both during the course of their arrest. The influence of drugs and / or alcohol appears to be a large factor in suspects under arrest resisting.

Internal Affairs Complaints

Informal Complaints:

The Internal Affairs Unit processed 25 informal complaints in 2020. The complaints involved a total of 28 counts. 7 of the 25 complaints had at least one count sustained. 12 were ruled as unfounded and 6 were ruled as exonerated.

Formal Complaints:

Internal Affairs investigated 1 formal complaint during 2020. This complaint was ruled as unfounded.

Complaint Inquiries:

Another 32 informal complaints were reported, but were handled directly by the Internal Affairs supervisor as the complaints were more of an inquiry by nature.

A combination of the COVID pandemic, which limited many law enforcement encounters, and the extensive availability of video has had a large impact on complaints both being filed and withdrawn once complainants had reviewed the actions of all parties that were recorded.
