Sexual assault cases are some of the most challenging types of investigations that criminal investigators face. Delays in reporting, uneasy victims, lack of evidence, and credible suspects often reduce the likelihood of successful prosecution. Participants in this course, whether new investigators or seasoned veterans, will learn innovative, courtroom-proven investigative techniques.

Taught nationally, this 12-hour course will provide participants with increased understanding, tools to conduct more in-depth investigations, resources to better manage victims, and tactics to obtain information from suspects. In this course, you will learn about:
