The back northeast side bedroom was missing a door and two windows. The back northwest side bedroom is missing two bedrooms. I took photos of each window spot that was missing a window, the frames of the doors that are missing, and the graffiti that was made inside the house with red spray paint. The owner emailed me photos that he had of the front of the house and right side of the house. The owner stated that his neighbor across the street called his son around 1629 hundred hours and told him that the door and windows are gone from their house. I walked across the street and spoke with the neighbor. The neighbor stated that he noticed that the house was missing the door and windows today around 1015 hundred hours. He stated that his wife is at work and she was working on looking through the footage because he did not know how to look at footage history. I informed him that we could have someone come out to retrieve the footage. The owner stated that he would try and get the information for the items missing as		VIRES, R. M.
